Show is now in progress.

The new searchlight, which is said to have a brilliancy twenty-two times greater than that of the Sandy Hook light, is the invention of Elmer A. Sperry, a member of the Naval Advisory Board, well known through his gyro-compass and aeroplane stabilizer. In tests already made the light's rays have been seen at a distance of fifty wiles.

have been seen at a distance of fifty miles.

Leading in interest among exhibits at the Electrical Show are those of the national, state and city governments. In the navy section the electrical school is showing a variety of signalling apparatus used on battleships, including a wireless set with a radius of 3.490 miles. Models of ships from the old Constitution down to the Oklahoma, still building, give a comparative study of the development of our navy. Other exhibits are a Whitehead torpedo, diving outfits and an electric crane.

The exhibit of the Army Signal Corps includes a motor truck designed to carry telephone, telegraph and radio signalling apparatus and radio outfits to be carried on horseback.

A working model of parts of the state barge canal is a feature of the state's exhibit. A syphon lock, syphon spillway, terminal warehouses and loading devices are shown.

In the city's group of exhibits are those from several vocational schools the showing wood working, printing, clay as the state several working, printing, clay as the state several working, printing, clay as the state several working, printing, clay as the several working, printing, clay as the state several working, printing, clay as the state several working, printing, clay as the several working, printing, clay as the state several working, printing, clay as the several working and the several working as the several workin

Court Is Requested to Solve

Mann Fung Low Money Puzzle

"We Have Found Way To Be as Rich as Famous Ho Chee," Says Unique Agreement Bared By Chinese Restaurant Partner.

Justice Gavegan has decided that Li Bue must testify before trial in the matter of the Mann Fung Low Chinese puzzle, which the Supreme Court has been asked to solve.

Mann Fung Low means the Oriental Restaurant and Li Bue was its treasurer. The members of the concern are quarreling over the profits, which, it is said, amounted to \$20,000 a year for three years. The restaurant is at 3 Pell Street.

Goon Clung, who objects to being cousted from the management of the cating place, is the plaintiff. He wants an accounting from Li Bue, saying the copartnership agreement was executable.

Mann Fung Low Chinese "We agree that if any active members of the company or secretly sells the goods of the company he will be dismissed, and his shares devicted for the amount. We agree that the active members employed in the company must be fair and cautious and must not be diligent at the beginning and lazy at the end. They must keep peace among themselves. These are the right ways to succeed in making money. Hon Dong is elected treasurer-nuclitor and holds the key to the cash register. He may find some one he trusts to take temporary charge for him when he leaves the city. Goon Clung is elected to have the key of the cash register upstairs."

Geon Cluin complains that everything went along well until Li Bue took charge of the books and refused to permit a distribution of the profits.
